Jodi Lennon
Business Administrator/Board Secretary
Ext. 1112

May 8, 2017

Dear Riverside School Community,

Our school system is committed to protecting student, teacher, and staff health. To protect our community and be in compliance with the Department of Education regulations, we tested our schools' drinking water for lead.

Results of our Testing (outside faucets)

We have completed testing on the two outside (seasonal) faucets and both tested below the lead action level established by the US Environmental Protection Agency for lead in drinking water (15 µg/l [ppb]).

For More Information

A copy of the test results is available in our Board of Education office for inspection by the public, including students, teachers, other school personnel, and parents, and can be viewed between the hours of 8:00 a.m. and 3:30 p.m. and are also available on our website at www.riverside.k12.nj.us. For more information about water quality in our schools, contact Robin A. Ehrich, Superintendent of Schools at 856-461-1255 ext. 1111.

For more information on reducing lead exposure around your home and the health effects of lead, visit EPA's Web site at www.epa.gov/lead, call the National Lead Information Center at 800-424-LEAD, or contact your health care provider.

Sincerely,

Robin A. Ehrich
Superintendent of Schools
